

TRANE®

Odyssey: High Efficiency

*Split System Light Commercial
60,000 & 120,000 & 240,000 Btu/h TTA/TTH/TWE/MCX Models
R407C Series 50 Hz*

Odyssey - Light Commercial

Cool You, Cool the Earth

New design of industrial air conditioner with non-ozone depletion refrigerant R407C to provide steady comfort with reliability and flexibility for all applications in split air conditioning system together with the effort to cool down the earth and protect our environment.

Maximum Efficiency

- Lower noise operation and higher efficiency with new generation high EER scroll compressor.
- Service shut-off valve AHU Starter Panel (Option)
- Product Specifications
- All units are 100% run tested prior to leaving the production line.
- Ease of Service
- Single rotating assembly minimizes the friction and mechanical losses.
- Newly developed model to achieve premium EER maximum at 12.50 Btu/h/W to help customer save electricity bill.

Quality and Reliability

- Scroll compressors are applied with excellent reliability and high efficiency.
- All units are 100% run tested prior to leaving the production line.
- Protect compressor damage from unstable electrical source or mis-phase connection with digital under / over voltage protection device

Ease of Service

Reduction of service time and cost through

- Single side access on condenser
- Multiple removable panels on air handler
- Colored and numbered wiring

Digital Thermostat (Option) Phase Protector AHU Starter Panel (Option)

TTH-FD Model

TTH/TWE Air Handler Unit

- Power paint finish
- Belt drive
- Full drain pan
- Thermal expansion valve

Option

- Discharge plenum
- High static motor
- Trane digital thermostat
- Trane AHU starter panel

TTA060FD

TTA Condensing Unit

- Power paint finish
- External current overload for compressor
- Refrigerant shut-off valve
- High&low pressure switch

Option

- Stainless casing / blue fin / Aeris coating fin
- Micro processor controller
- Wire guard

TTA120&240FD

Models	Indoor unit		TTH060FD	TTH120FD	TWE240FD
	Outdoor unit		TTA060FD	TTA120FD	TTA240FD
Electrical Data	Power Supply	V/ph/Hz	380-415/3/50		
Performance Data	Cooling Capacity	Btu/h	62,100	128,700	240,000
	EER	Btu/h/W	12.51	12.52	11.86
	Nominal Airflow	CFM	2,000	4,000	8,000

Dimensions	H x W x D	mm	1,050x950x1,060	1,050x2,200x1,050	
Weight		kg	158	285	402
Piping Connection Type			Shut-off Valve - Braze Connection		
Refrigerant Pipe Size	Liquid	in	1/2	1/2	1/2 *
	Suction	in	1-1/8	1-3/8	1-3/8 *
Refrigerant			R407C - Holding Charge		

Note: 1. Capacity is rated at ARI conditions of 80°/67° FDB/FWB for Indoor & 95° FDB for Outdoor
 2. Outdoor unit dimensions depth is not included the dimensions of unit's legs.
 3. Product design and specification are subject to change without notice.
 4. (*) Refrigerant pipe size of TTA240FD is for dual circuit type.

Trane optimizes the performance of home and buildings around the world. A business of Ingersoll Rand, the leader in creating and sustaining safe, comfortable, and energy efficient environments. Trane offers a broad portfolio of advance controls and HVAC systems, comprehensive building services, and parts. For more information, visit www.tranethailand.com
